INTRODUCTION

1. Many safety hazards are seasonal in nature and can best be safeguarded against with a systematic, seasonally oriented approach. The Spring/Summer Safety Guide outlines commanders/supervisors' responsibilities for the spring/summer months and provides guidance, information and lesson plans on the most serious of the season's hazards.
2. This guide assists commanders/supervisors to plan, develop and manage effective year-round safety programs. All company commanders/supervisors should familiarize themselves with the contents of the safety guide and have a thorough understanding of their safety responsibilities.
3. The areas mentioned below are especially sensitive and impose specific training or inspection requirements. All company commanders/supervisors will be thoroughly familiar with their responsibilities in these areas, and ensure strict compliance with all training or inspection requirements.
4. Company commanders/supervisors will ensure that the following safety training requirements are accomplished for all Area II Support Activity personnel. When necessary, instruction should be in both English and Hangul to ensure all personnel fully understand the subject matter.
 - a. Monsoon Safety training
 - b. Heat Injury Prevention training
5. Emphasis on safety by the entire chain of command will reduce accidents.
6. Additional safety assistance can be obtained from the Area II Support Activity Safety Office, Yongsan, South Post, Bldg # 4305 (Room # 121) at 738-4643.

TABLE OF CONTENTS

<u>TOPIC</u>	<u>PAGE</u>
Heat Injuries	1 - 2
Spring/Summer Driving Hazards	3 - 5
Water Safety	6 - 7
Korean Hemorrhagic Fever (KHF)	8 - 9
Monsoon Season Safety	10 - 11
Rainy Season/Flooding	10
Thunderstorms	11
Sport Activities and Recreational Safety	12 - 20
Volleyball	12
Baseball/Softball	13
Tennis Safety	14
